Opidiaci

Colour

Book

Crevin presents their new contract catalogue in an innovative format with 170 fabric positions available in FR and non-FR. Instead of individual pages, the catalogue offers a totally new concept of one colour card that can be folded in different colour groups or unfolded for a world of colour and texture at one glance. The collection consists of 9 different fabrics presented with technical and sustainability information, care instructions, flammability norms and a feeler swatch.

Crevin links the mindful and sustainability-conscious designer to a distinct contemporary aesthetic based on homely design, performance and artisanal mastery. Thanks to their double woven structure, Crevin contract fabrics are made flame retardant by incorporating Fr-yarn into the base fabric, without applying environmentally harmful chemicals or back-coatings.

- Soft, velvet lookalike.
- Classic-contemporary, timeless feel.
- Multifunctional, adaptable to any space.
- Very durable, snag and pilling resistant.
 - Easy to clean with water and soap.
 - 18% recycled content.
 - Available in FR and non-FR.

We design, we weave, we dye, we finish. In short, we create. Our expertise comes from understanding every aspect of fabrics.

We are born and bred in Terrassa, a small town close to Barcelona and home to innovative textile production since the late 19th century.

It continues to be a place of respect for tradition, people and excellence in cultivating sustainable technologies.
